

## **gate zero's biography**

written by stefan biermann

born in 1980, gate zero is a music collector since he became 12 years old. he bought many different kinds of records (ambient, electronica, electro, experimental, downbeat, minimal, jazz, house ... etc.) in the mid 90s he started to play drum and bass in different clubs as a dj. by that time he worked in different record stores in düsseldorf for a few years. 2004 he followed his dream to produce his own music. the gate zero project is a mix of ambient, electronica, experimental, ...etc. he likes environmental recordings and strange tones, mixed with live recorded and self sampled acoustic percussions and other instruments. 2005 stefan released his first full length album on pete namlooks fax label. after that he released a few tracks on netlabels, different samplers and also a few remixes. the cd saw a follow-up in 2006, again on fax, and gate zero also played live a couple times.
